

AVEM

→ [PRESSKIT](#)

AVEM presents a versatile and genre-bending take on Electronica. Born and raised in Basel (CH) to parents with Spanish and French descent, the amalgamation of varied influences was already present in his upbringing. Boris' compositions display a wide sonic field; from driven synthesizer classics, eerie field recordings and acoustic experimentation, all the way to dreamy vocal performances. AVEM's output manifests in producing, playing live concert shows and DJ sets, but also realising visual aspects in still and motion.

The artist's live sets had their start in 2018, premiering at Mira's birthday at [Kater Blau](#). Past highlights include shows at various large-scale festivals, but also cities like Vienna, Paris, Oslo and New York City among many others. 2023 had the artist releasing his first studio album on his home label [LOKD](#). The album can be understood as AVEM's brainchild through and through, the artist having created all the visual aspects of the physical record as well. [Dream State](#) saw the light of day on digital and vinyl on September 1st 2023.
